

Accelerate Diagnostics Announces Proposed Public Offering of Common Stock

TUCSON, Ariz., May 08, 2017 (GLOBE NEWSWIRE) -- Accelerate Diagnostics, Inc. (Nasdaq:AXDX) today announced that it has commenced an underwritten public offering of 2,500,000 shares of its common stock. All of the shares are being offered by Accelerate Diagnostics. In addition, Accelerate Diagnostics expects to grant the underwriters of the offering a 30-day option to purchase up to an additional 375,000 shares of its common stock at the public offering price, less the underwriting discounts and commissions. The offering is subject to market and other conditions, and there can be no assurance as to whether or when the offering may be completed, or as to the actual size or terms of the offering.

Accelerate Diagnostics anticipates using the net proceeds from the offering for general corporate purposes and to fund commercialization efforts.

J.P. Morgan Securities LLC is acting as lead book-running manager for the offering. William Blair & Company, L.L.C. and Piper Jaffray & Co. are also acting as joint book-running managers. BTIG, LLC is acting as lead manager for the offering.

An automatic shelf registration statement relating to the shares was filed with the Securities and Exchange Commission on April 13, 2017 and became effective upon filing. About Accelerate Diagnostics, Inc.

Accelerate Diagnostics, Inc. (Nasdaq:AXDX), is an in vitro diagnostics company dedicated to providing solutions for the global challenge of antibiotic resistance and healthcare-associated infections. The company's Accelerate Pheno™ system and Accelerate PhenoTest™ BC kit were recently cleared by the FDA for antimicrobial susceptibility testing direct from positive blood culture samples. The solution leverages proprietary molecular identification methods and morphokinetic cellular analysis (MCA) to provide minimum inhibitory concentrations for a range of applicable antibiotics. The fully-automated system is designed to eliminate the lengthy culture and sample preparation steps required prior to antimicrobial susceptibility testing.
